

Fan Out Kit

- 6 fibres Cat. No : 0 330 48
 - 12 fibres Cat. No : 0 330 49

1. USE

Field termination of loose tube cables into indoor cross-connects

2. DESCRIPTION

Indoor buffer tube fan-out kits are specifically designed for the termination of 6 and 12 fibre loose tube cables.

These fan-out kits provide the ultimate solution for those users who wish to field-install connectors. The kits provide the most compact, easy-to-install fan-out solution which requires no additional hardware or space than that required for terminating tight-buffered cables. The fan-out kit features a 900 micron fan-out assembly that is colour coded to match the fibres you are terminating. The fan-out assembly is available for 6 or 12 fibre units in a length of 1.2m.
